Morocco has several advantages to strengthen its position as a regional film hub

Socioeconomic stability

Morocco offers a stable and resilient economic environment ensuring security for international operators. Its well-established institutions protect their interest and create a climate of confidence. Its strategic geographical position and the extensive network of free trade agreements enhanced its worldwide competitivity. These elements combined make Morocco an attractive destination for foreign direct investors.

Incentive-driven fiscal framework

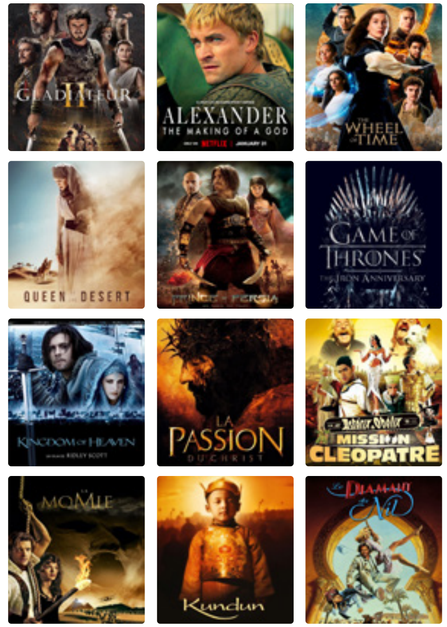

With the recent increase from 20% to 30% in the Tax Rebate for any investment over $1M, Morocco is positioning itself among the countries offering a competitive fiscal framework, in addition to the full exemption from VAT on purchases made by production companies.

Morocco has the necessary conditions for international production teams

Track-record of Blockbusters

Over than 250 super productions have been filmed in Morocco. These shoots have contributed to the fame of the destination, as well as the Moroccan production agencies that have successfully supported them.

Many of these productions were filmed in Atlas & CLA Studios Ouarzazate including Gladiator 2, Alexander, The Wheel of Time 2, Game of Thrones, Queen of the Desert,.....

Diversity of landscapes

The diversity of Morocco's landscapes is quite unique and constitutes a true intangible heritage: 3 500 km of coastline, 100 000 km² of mountains, 300 000 km² of desert, 10 climate zones, 10 national parks, 7 000 km of rivers.

Why shoot in Ouarzazate?

Ouarzazate offers production teams stunning outdoor sets such as oases, valleys, mountains dunes and Kasbahs, all in an exceptional climate where the sun shines more than 300 days a year.

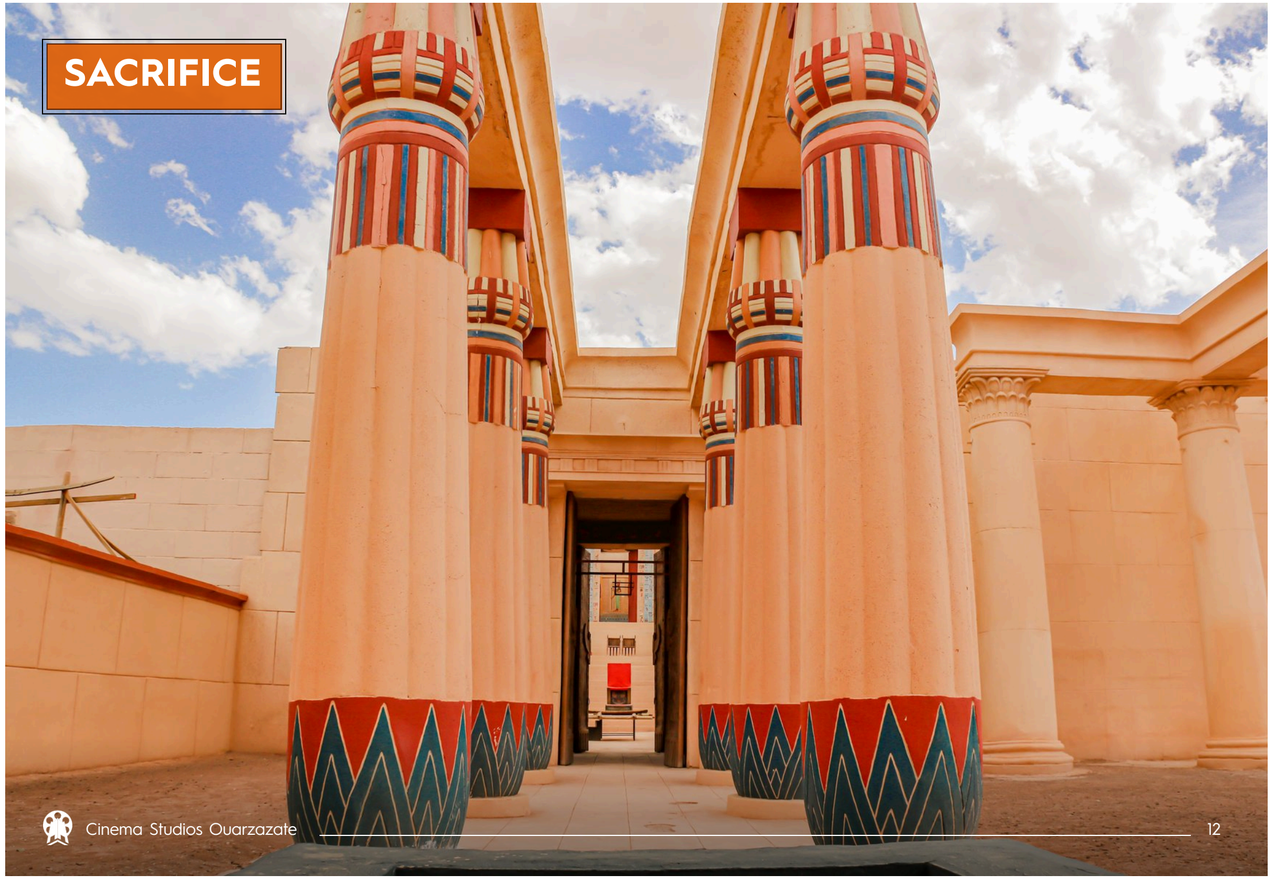

Ouarzazate has attracted many international productions thanks to:

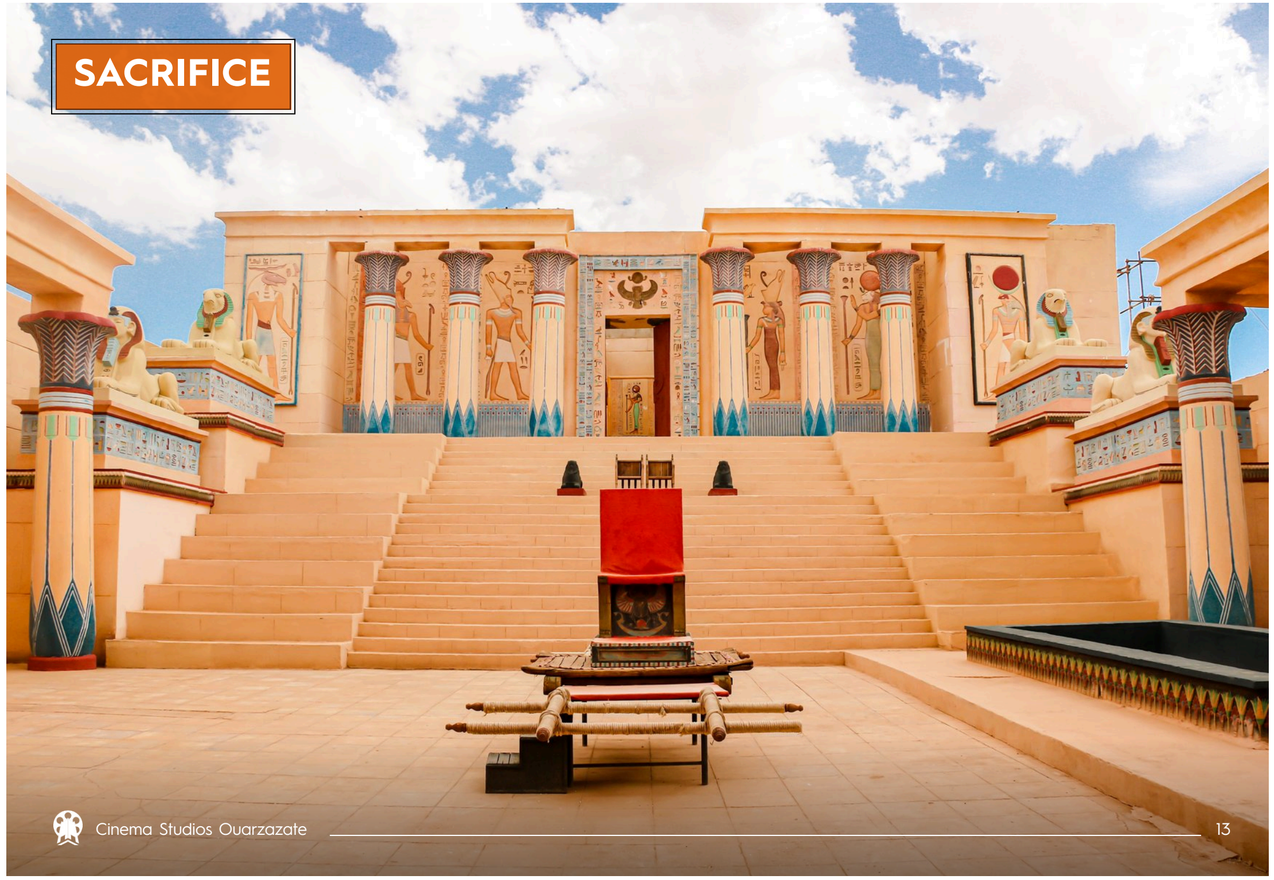

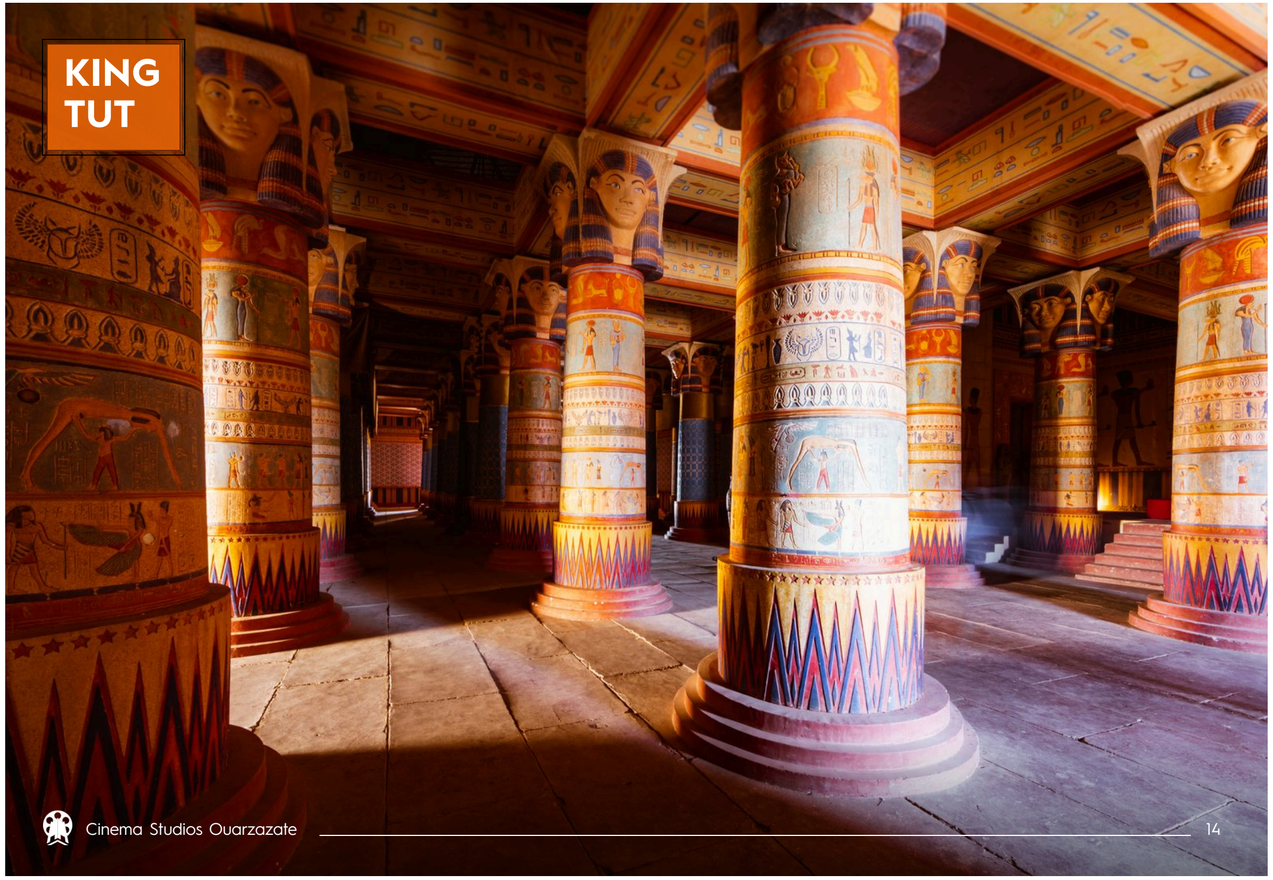

- An advantageous geographic location
- A warm and temperate climate
- An exceptional natural light
- Competitive costs
- High-quality technical teams
- A multitude of diverse exterior sets
- On-site availability of a range of technical equipment
- Outstanding support from all the Kingdom's official institutions: the Royal Armed Forces (land, air, and sea), the Royal Gendarmerie, and National Security
- An international airport located just 8 km from the studios
